#### CHICAGO HAS ESSANAY

Big Film Company Closes Other Establishments and Concentrates Its Studios Here.

> Chicago now has exclusively, the biggest film company in America. With the opening of a new studio, the third on the north side, the Essanay company has chosen its two outside establishments, one in Niles and the other in Los Angeles, preferring to concentrate its efforts in Chicago. Of concentrate its efforts in Chicago. Of the four prominent concerns identi-fied with the film industry, Selig. Es-sanay, Kleine and American, Essanay is the only company with a perma-nent producing plant in this city. Selig takes the pictures at his studio in Chicago intermittently, while in

Edendale, Cal., he produces plays continuously; the American has its stu-dies in Santa Barbara, Cal., and conducts its business affairs in this city; and Kleine's producing activities are in the Bronz, New York City. The Essanay studios are equipped with artificial lighting facilities which

enable its producers to stage plays in all sorts of weather, while the days of sunshine are devoted mostly to exterior scenes. George K. Spoor, president of the company, has been a persistent booster for Chicago on count of its central location

"I have always believed that Chicago is the natural distributing center of the United States," he said, "and for the shipment of goods excels any other American city for centralisation. I closed my western studios and increased my Chicago holdings because I want the plays produced by our company to be as close to the distributing center as possible.

"It is not necessary to go to Cali-fornia for sunlight; artificial light makes an ideal substitute, and you 66th, west to S. Wood, north to W. Garfield blvd., east to Loomis, north need not fret over rain and clouds. While in the past capital was represented mostly in the east, there is a trend toward this city in that direction. I believe that both manufacturer and distributor of motion pic-tures logically belong in Chicago on account of its central location and railroad facilities."

> The water meter graft is bobbing its head up again. It is proposed to tax every lo' is Chicago from \$200 to \$500 for water meters, besides the great expense it

will entail upon all users of water. Chicago has an immense water fund. If part of it was devoted to the lake end of every section line in west to S. Center ave., north to W. 107th, east to S. Halsted, north to W. 103rd, east to Stewart ave., north to W. 84th, west to Wallace, north to Chicago there would be no water famine anywhere.

It is astonishing what men the water meter people can influence to their way of thinking. Some men who ought to know better are talking tor water meters.

More than that the "high pressure" scheme is up again. According to some advocates it will only cost thirty or forty millions of dollars to install meters and a "high pressure" system. The poor will have

to pay the cost.

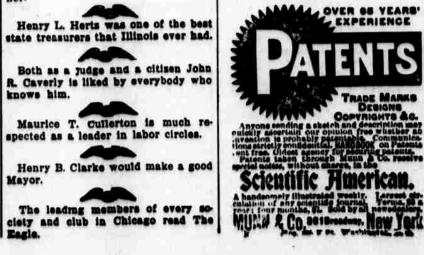

With half this sum additional pumpeast to S. Austin ave., south to Mading stations could be built which would more than supply the demand. ison, east to N. 52nd ave., north to A well known engineer who was advocating "high presure" and water meters said the other day, according to delly papers, that one of the chief to S. 46th ave., south to W. 39th, east to canal, northeast to S. Central Park troubles in Chicago was the very high consumption of water, which averaged about 2,006 gallons per capita daily, caused largely by waste and undereast to S. Homan ave., south to W. 19th, east to S. Kedsie, north to W. ground leakage from broken connections. As a remedy for waste he recommended water meters. The test of the water pressure made in the loop shows an insufficient pressure, to W. North ave., west to N. 46th ave., south to W. Kinsie, west to N. but he said that the city was installing a large number of water mains, none under eight inches, and these S. Austin ave., south to W. 12th, east would materially improve the presto S. 40th ave., north to W. Chicago

ave., east to St. Louis ave., north to The health of the city demands W. North ave., east to Sacramento plenty of water for everybody. The installation of meters would imit the consumption of water and rais' ...e price of living on the poor. Q. J. Chott, the well known lawyer, aigher rates would have to who made a good record on the jusnarged in the residence districts and tice bench, would make a good Munio tenents would have to pay the water

> exorbitant rate for installing water meters. This form of graft is particularly objectionable to Chicago people. They will not stand for it. It hits everybody and it is unneces

rates after the landlords had paid an

Rivers McNeill, the popular and emcient Collector of Customs, reflects great credit on President Wilson's administration.
